Academic Qualifications

Year	Degree/Certificate	Institute	CPI/%
2020 - 2024	B.Tech	Graphic Era Deemed to Be University	8.0/10
2019	ISC(XII)	Heliger Borden Education Center, Kanpur	83.5%
2016	ICSE(X)	Heliger Borden Education Center, Kanpur	89%

Positions of Responsibility

- **Team Lead & SDE, Craftindika** *Mar 2023 - Present*
 - **SDE and Team Lead:**
 - * Worked extensively with the **MERN** Stack and **DevOps**, actively contributing to project development and ensuring smooth operations across the team.
 - * Implemented best practices in coding, and deployment, leading to improved efficiency and reduced downtime.
 - * Collaborated with team members to troubleshoot issues, optimize workflows, and deliver projects within the established deadlines.
 - **Full Stack Developer:**
 - * Worked on client projects in e-commerce and various other domains, including the company's base project, an e-commerce platform.
 - * Developed and implemented software solutions tailored to meet client requirements.
- **Web3 Developer, TechStack Solutions** *Sept 22-Dec 22*
 - Worked mainly on web3 projects such as Collateral Plugins and Swap Bridges.
 - Worked in team of 5 people.

Projects

- **eSignatory** *(June'24 - Aug'24)*
 - Developed a platform for digital document signing, catering to both individual and business users.
 - Integrated subscription management features to offer tiered access and services to users.
 - Focused on user-friendly interface design and robust backend architecture to handle high volumes of documents efficiently.
- **Ultimate Emailing - Full Stack Development and Optimization** *(Jan'24 - Feb'24)*
 - Designed and implemented a full-stack application for optimized email scheduling and management.
 - Integrated features such as automated email sending, tracking, and analysis to improve user engagement.
 - Utilized modern technologies including Node.js for backend, React.js for frontend, and MongoDB for database management.
- **Adimaginz - Large Data in Node.js** *(Nov'23 - Jan'24)*
 - Built a robust platform using Node.js and MongoDB to handle large data of users (more than 50 Million) with various features and analytics.
 - Implemented scalable data processing techniques to manage and analyze large datasets efficiently.
 - Developed APIs and user interfaces for data visualization and real-time user insights.
- **Windows Portfolio - Portfolio Website in Windows Theme** *(Aug'23 - Dec'23)*
 - Created a unique portfolio website themed around the classic Windows operating system interface.
 - Integrated interactive elements and animations to enhance user experience and engagement.
 - Utilized HTML, CSS, and JavaScript to develop a responsive and visually appealing design.

Technical Skills

- **Programming Languages:** C, C++, HTML, CSS, JavaScript, Java, Solidity, Python, GoLang
- **Software and Libraries:** Node.js, Next.js, React.js, Express, Tailwind
- **Others:** AWS, Azure, Git, GitHub, Selenium, Puppeteer

Extra-Curricular Activities

- Secured 1st rank in coding competition in IIInd year of my B.TECH.
- Secured IIIrd rank in project area competition, for my project Form Handler.
